Visa Overseas Transaction Fees

All transactions made in a foreign currency on the Visa card will be converted into Australian currency by Visa Worldwide, and calculated at a wholesale market rate selected by Visa and from a range of wholesale rates or the government mandated rate that is in effect one day prior to the Central Processing date (i.e. the date upon which Visa processes the transaction).

Visa Card Conversion fee

All transactions made in a foreign currency on the Visa card are subject to a currency conversion fee equal to 2% of the value of the transaction, payable to Cuscal as the principal member of Visa Worldwide. The amount of this currency conversion fee is subject to change. Laboratories Credit Union will advise you in advance of any such change.

Other Third-Party Fees

You may be required to pay any third party costs the Credit Union incurs, such as but not limited to solicitors fees, valuation fees, agents fees, settlement fees, lodgement fees, all other government charges including stamp duty, registration and discharge fees, search fees, production fees, pest report fees, any other report or certificate fees, independent legal advice fees or independent financial advice fees.

These fees are charged at the cost to the Credit Union.

Information on avoiding fees & charges when using an LCU Visa Card

You can make free withdrawals when using ATM's operated by most of the major banks without incurring a direct charge. If you use RediATM's or any other ATMs you may incur a charge that will be debited at the time of the withdrawal, and you will have the option to either accept the fee to proceed or reject the fee to stop the transaction.

It may be beneficial to make larger transactions instead of many small ones.

LCU gives you 20 free EFTPOS cash withdrawals per month. By using the "Savings" option and entering your PIN, cash may be withdrawn at the same time as making a purchase without incurring a fee..

If cash is not required when making a purchase, it is preferable to select the "Credit" button and use your PIN. By choosing the "Credit" option the purchase is treated as a Visa purchase and does not count towards the free monthly EFTPOS transactions. Tap & pay payments using your LCU Visa Debit Card can be either EFTPOS or Credit depending on the merchant. Don't forget that you can now tap & pay with your mobile phone using Apple Pay or Google Pay. Be aware that some merchants charge a small percentage % surcharge for using credit so check before you utilise this option.

Still writing cheques? Other Bill paying methods are;

- Visa card
- Electronically via Direct Debit or
- BPay

Why use cash when you can transfer funds, bank to bank, in moments?

Osko allows you to make transfers that arrive in the recipient's account almost immediately. Cash is no longer the quickest way to get money to someone.
